

VoIP AND UNIFIED COMMUNICATIONS CONSULTING SERVICES

Video/Data/Voice Communication Integration. Call Centers. Remote Staff.

VoIP and Unified Communications (UC) solutions now offer flexible, collaborative, and integrated communications for organizations. With numerous options and features, getting started can be daunting. Stragistics helps you navigate this landscape.

WE EVALUATE YOUR GOALS, SUCH AS:

Supporting
remote staff and
distributed
offices.

Integrating
third-party video,
data, and voice
systems.

Supporting a
distributed call
center staff.

Integrating
organizational and
client data.

We guide you toward solutions that align with your current and future objectives. Unified communications offer benefits over legacy systems, including remote flexibility, collaboration, instant messaging, data sharing, and cost savings. Stragistics ensures you implement your VoIP/UC project using industry best practices.
