

IT Staffing and Managed Services

Stragistics is a technology solutions powerhouse with over 25 years of experience delivering resources, teams, and managed services to large and mid-sized organizations in the private and government sectors. We manage and evolve technology infrastructure, applications delivery, and operations support with core competencies in IT and Engineering talent, solution delivery, and strategic technology consulting across various verticals including Telecom, Manufacturing, Healthcare, Finance, Energy, Transportation, Education, and Utilities.

Our IT resources cover the full spectrum of technology disciplines, reflecting the continuously transforming technology landscape. As an ISO 9001-2015 certified company, we use industry-proven methodologies for fulfillment, delivery, and management.

Stragistics offers end-to-end, affordable, turn-key solutions to IT organizations, both onsite and offsite.

Our technology-neutral and scalable solutions allow clients to quickly seize new opportunities.

Our partner alliances provide critical skills and experience for all phases of planning, development, and implementation.

As a culture, we commit to understanding your mission and objectives, and as a true partner, we endeavor to make them our own. We leverage our industry expertise, swift response, and flexibility to provide the right solutions for your IT challenges.
