Future Ready: Reimagining, Collaborating and Transforming

Corporate Seminar: Reimagining the Future of Technology within Corporations and Businesses

September 12, 2024 | 1:30 pm | Ballroom C

The impact of the Digital Divide has caused corporations and business owners to reimagine their technology solutions. This seminar will bring together thought leaders, industry pioneers, and experts to discuss the challenges and opportunities that lie ahead. During this session experts will delve into the heart of this evolution, exploring the cutting-edge innovations and strategic insights that will shape the business world as an imperative for future growth and sustainability.
