DISASTER RECOVERY AND BUSINESS CONTINUITY SOLUTIONS

Equipment Failures. Outages. Data Corruption. Natural Disasters.

Disruptions to your IT infrastructure can significantly harm your business, affecting part or all of it. One in five organizations lack a disaster recovery or business continuity plan, and 40-60% of those without a plan go out of business. The risk is significant.

Technology-related disruptions are increasing as services become more distributed and systems outdated. Failures reveal gaps in recovery capability. Stragistics ensures your organization is prepared for and can continue operations during and after a failure. We will:

Identify business objectives and priorities.	Pinpoint critical systems and processes.	Assess current recovery/backup/ failover capabilities.	Recommend necessary solutions and systems.	Integrating organizational and client data.

A proactive Disaster Recovery solution minimizes disruption, ensuring minimal loss of time, services, and revenue. Let Stragistics be your DR solutions consultant to maintain business continuity.

ABOUT DIR

IT Staff Augmentation Services Contract (ITSAC) provides temporary IT staff resources on an as-needed hourly basis. Resources are acquired via solicitations initiated by eligible DIR Cooperative Contract customers.

- The mission of the Texas Department of Information Resources is to serve Texas government by leading the state's technology strategy, protecting state technology infrastructure, and offering innovative and cost-effective solutions for all levels of government. Visit DIR at https://www.dir.Texas.gov.

- Stragistics Technology was awarded this contract, DIR-CPO-5653, as of 2025 to offer technology to state and local governments through DIR's Cooperative Contract Program. Visit Stragistics at https://www.Stragistics.com.
