# CYBERSECURITY CONSULTING SERVICES

***Ransomware. Device Hacking. Malware. Configuration Errors. Phishing.***

Cybercrime costs are projected to reach **\$10.5 trillion** globally by 2025, making a cybersecurity program essential. Organizations face relentless cyberthreats compromising data, devices, applications, and networks. Protecting against these sophisticated threats is crucial.

## WHERE DO YOU START?

To protect your assets against these threats, Stragistics offers expertise in cybersecurity, networking, systems management, and application development to:

Assess your  
organization's  
vulnerabilities.

Identify potential  
process and  
system risks.

Recommend best  
practices at  
employee,  
technology, and  
environment  
levels.

Provide  
awareness/process  
training to prevent  
incidents caused  
by human error.

Solutions range from simple, cost-effective measures to more complex technological investments. Regardless, a robust cybersecurity strategy must be central to your organization's technology plan.

## ABOUT DIR

IT Staff Augmentation Services Contract (ITSAC) provides temporary IT staff resources on an as-needed hourly basis. Resources are acquired via solicitations initiated by eligible DIR Cooperative Contract customers.

- The mission of the Texas Department of Information Resources is to serve Texas government by leading the state's technology strategy, protecting state technology infrastructure, and offering innovative and cost-effective solutions for all levels of government. Visit DIR at <https://www.dir.Texas.gov>.
- Stragistics Technology was awarded this contract, DIR-CPO-5653, as of 2025 to offer technology to state and local governments through DIR's Cooperative Contract Program. Visit Stragistics at <https://www.Stragistics.com>.
